Black Amber ist eine luxuriöse, verführerische Sorte mit einem tiefen, fruchtig-moschusartigen Bouquet. Entstanden aus Gewebekulturen und echter Craft-Pflege – Indoor gezüchtet, von Hand getrimmt, hängend getrocknet und gereift – entfaltet sie ihr volles Aroma von dunklen Früchten und erdigem Moschus.

Der Rauch ist weich, süß und leicht würzig. Die Wirkung: wohltuend, beruhigend und körperlich entspannend – ideal zum Abschalten und für einen erholsamen Schlaf. Mit ihren dunklen, fast schwarzen Blüten und funkelnden Trichomen setzt Black Amber neue Maßstäbe im „Briah“-Portfolio.

Genetic tree

Black Amber is a luxurious and deeply seductive strain that captivates the senses with its intoxicating, complex bouquet. Craft premium care: from tissue cultures, through hand trimming, hang-drying and long curing. Its aroma is a rich tapestry of sweet, dark fruits like plum and blackberry, beautifully interwoven with warm, and a deep, earthy musk. The effects are a masterclass in tranquility; a gentle, blissful haze initially settles the mind, but the true magic lies in the weighted, comforting warmth that slowly melts over the body, erasing physical tension and stress. Perfect for concluding a long day, Black Amber wraps you in a serene embrace, making it an exquisite choice for those seeking profound relaxation and a peaceful passage into a restful night's sleep.

With its dark black buds, covered with shining trichomes, the perfect hybrid strain brings new highs to “Briah”’s portfolio.
